.....APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

.....This permit is issued subject to all existing rights on the
source and is limited to what the well will produce but not to
exceed 5.4 c.f.s. If well is flowing, a valve must be installed
and maintained to prevent waste. A parshall measuring flume must
be properly installed in a location approved by the Las Vegas office
of the Division of Water Resources. It is understood that this right
must allow for a reasonable lowering of the static water level at
permittee's well due to other ground water development in the area.
This source is located within an area designated by the State Engineer
Pursuant to NRS 534.030, therefore, the State retains the right to
regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
not to exceed.....5.4.....cubic feet per second., or a yearly duty of
5.0 acre-feet per acre of land irrigated.
